

FARM BAR™ UNIVERSAL SCALE

FARM BAR™ UNIVERSAL SCALE

Unmatched for Accuracy and Durability

Simple Solution to Animal Weighing

The Farm Bar digital animal scales are heavy duty electronic load cell weigh scales, available in three capacities, and cover a variety of weighing applications. They mount under most cattle squeeze chutes, hogcrates, feed hoppers or custom platforms.

All Weather Use

The all-steel construction of the scale has been proven over 30 years of field use. Load cells are coated for permanent outdoor installation. There are no moving parts to wear out, and no costly maintenance. All of the scales provide years of trouble-free service.

Easy Read Indicator

The Model IQ plus 390 Digital Indicator features a large LCD display that's easy to read even in direct sunlight. The weight is displayed in lb or kg at the push of a button. It operates on multiple power sources. A computer output is standard, allowing you to transfer animal weights to a PC or printer.

Quick, Accurate Weights

Farm Bars provide a solid scale base by eliminating platform movement which could frighten livestock. This, in combination with the lock-on feature, guarantees an exact reading regardless of how lively the animal is.

Factory Calibration

Calibrating and balancing at the factory eliminates installation errors and the need for an installation technician. Install the scale, press the Zero button, and you're ready to weigh. This also allows you to compensate for debris and mud or snow buildup. Rice Lake's load cells—the heart of every system—are constructed of rugged steel with precision bearing components balanced and calibrated at the factory for years of worry-free performance. Each Farm Bar has built-in horizontal checking and unique flex bases to ensure accurate weights in the roughest conditions.

2,500U Scale Package for Alley Scales

- Ideal for an alley way scale system or for small animal weighing
- Capacity of 2,500 lb (1,250 kg)
- Finest reading is 0.5 lb (0.2 kg)
- Available length is 22"
- Bar height is 4"
- Bar spread is 5"

5,000U Scale Package for Manual Chutes

- Guaranteed for use under a manual chute
- Capacity of 5,000 lb (2,500 kg)
- Finest reading is 0.5 lb (0.2 kg)
- Available length is 28", 33", 40", 44", 48"
- Bar height is 4"
- Bar spread is 8"

10,000U Scale Package for Hydraulic Chutes

- Guaranteed for use under a hydraulic chute or a buffalo chute
- Capacity of 10,000 lb (5,000 kg)
- Finest reading is 1.0 lb (0.5 kg)
- Available length is 36", 48", 60", 72"
- Bar height is 4"
- Bar spread is 8"
